WHAT ONE LIFESTYLE CHANGE COULD MOST BENEFIT OUR HEALTH Reduce stress
ALTERNATIVE OCCUPATION Rock star
HOBBIES Physical fitness

ACCURATE AUGMENTATION

The philosophy behind Dr. Ciaravino's surgical procedures is "TO USE A VERY GENTLE HAND AND BE VERY PRECISE in order to minimize bruising and bleeding." In his breast augmentation work, for example, he says he utilizes specially designed instruments that allow for smaller incisions and result in a significant reduction in post-operative trauma. "Traditionally, augmentation patients would expect to have bleeding, bruising and soreness for two weeks," Dr. Ciaravino points out. "The technique I've adopted is dramatically different and it consistently YIELDS GOOD RESULTS with minimal swelling, less bruising, accurate placement of implants and nicely shaped breasts." Dr. Ciaravino, who also performs a large number of breast augmentation revisions, credits the success of his work to "performing the surgery with precision and finesse."

ahead of the curve

Listen carefully and you'll hear the clicking of Manolo Blahnik heels hitting the granite floor of Dr. Michael Ciaravino's stylish cosmetic surgery center as the fashionable set enter his offices.

"We see a lot of models and attractive women who want to enhance their appearance," remarks Dr. Ciaravino, who has been selected by *Playboy* as the official plastic surgeon for its models in Texas. Ciaravino says that creating beautiful-looking breasts is his specialty, and the Galleria shopping crowd flock to his offices in the hope of filling out their Versace dresses a little bit better post-surgery. His main location is in Houston with a satellite office in Sugar Land). Dr. Ciaravino and his staff are outgoing and friendly. "We like to establish a good rapport with our patients and want them to feel as relaxed as possible," he explains. Known for his delicate approach as a surgeon, he says his patients typically show much less bruising and enjoy a speedy recovery. "I approach each procedure with precision and attention to detail," remarks Dr. Ciaravino, who tends to emphasize less-invasive nip-and-tuck procedures. "Giving our patients a comfortable recovery and getting them back to work quickly and looking great is our top priority." 713-627-1200 or newbeauty.com/ciaravino.
